

Journal of Post Keynesian Economics

Information for Contributors

Submission of Manuscripts

Manuscripts should be submitted to:

Paul Davidson, Editor
Journal of Post Keynesian Economics
New School University
6 East 16th Street, 11th floor
New York, NY 10003-3034

The submission of a manuscript to *JPKE* certifies that the manuscript is not copyrighted and is not under review for publication in another journal. If the manuscript is an excerpt of a book to be published in the near future, anticipated details of the title and publication data should be provided.

Form of Manuscripts

Three copies of manuscripts should be submitted. The text should be double-spaced, on one side of good quality paper, allowing ample margins; it should not exceed 25 pages or 7,500 words. All illustrations, tables, etc., should be placed on separate sheets, included with each copy. Their approximate placement should be indicated in the text. The notes should be placed at the end of the text (**DO NOT USE EMBEDDED FOOTNOTES OR GRAPHICS**).

The covering letter should provide full affiliation, complete mail and e-mail addresses, and telephone number(s) of the corresponding author. Brief biographical statements of all authors should be included. The title page should include the paper title and the names and affiliations of all the authors.

Text files should be submitted on a floppy disk in Microsoft Word or in WordPerfect (a list of acceptable file formats is available on demand; we can accept most word processing formats, but not TEX or LATEX). The software and formats used for the text and graphics files should be identified in the covering letter as well as on the diskettes. In addition, the disk should be labeled with the author's name and the title of the paper.

- All tables and charts or other art should be submitted in separate files from the main text of the manuscript and the diskettes must indicate the program used to create them. **DO NOT** embed them in the main text of the manuscript.
- **DO NOT** use the automatic footnoting feature in your word processor. Notes should be indicated by a superscript number in the text, and the note text should be placed as regular running text at the end of the manuscript or in a separate file.

References

If a reference list is included, it should appear at the end of the paper. The references should be arranged alphabetically according to the name of the first author or editor, and numbered. Citations in the text and the notes, referring to this list, should be made as follows: (author last name(s), date).

References to Items in Periodicals

These should take the form: author(s), title, journal (italicized or underlined), volume and issue numbers, date, inclusive pages. For all authors, last names are given first; likewise for editors, with the names followed by "(ed.)". The name of the last author ends with a period. More than two authors (but not editors) are separated by semicolons. The title has only the first word and proper names (or their derivatives) capitalized, and it ends with the period. The date is given in parentheses. Example:

Davenport, T.H., and Beers, M.C. "Managing Information About Processes." *Journal of Management Information Systems*, summer 1995, 12(1), 57–80.
Smith, John. "Why Economics?" *New York Times*, April 1, 1999, 25.

References to Books

Author(s) are specified in the same style as for periodicals. In the title, all principal words are capitalized and the title is italicized or underlined. The title ends with a period and is followed by city, ":", publisher, year. Example:

Nonaka, J., and Takeuchi, H. *The Knowledge-Creating Company*. New York: Oxford University Press, 1995.

Figures and Tables

Figures should be submitted as original drawings, complete, and ready for photoreproduction. Tables submitted as cleanly printed copy may also be reproduced photographically. All lettering and figure elements should be large enough to be readable when the figure has been reduced to fit the journal page. All figures and tables must be specifically referred to in the text. All figures and tables should have brief, descriptive captions. If figures are provided on diskette, they should be in their original software (e.g., Excel, JPEG, TIFF, EPS), rather than pasted into a word-processing document. **All figures must be submitted in camera-ready condition, preferably in black and white.** We do not have the staff to produce or otherwise repair figures.

Proofs and Reprints

Authors will receive page proofs of their papers, which should be returned to the publisher within ten working days. Each author will receive a free copy of the issue in which his or her paper appears. Additional copies of the journal and/or reprints may be ordered at the time the proofs are returned.
